## PROFILE

A highly motivated **Front-End Developer** with over 1 year of experience in designing and implementing dynamic, user-friendly websites and web applications. Skilled in **HTML**, **CSS**, **JavaScript**, and **React**, with hands-on experience in creating responsive designs that meet client requirements. Passionate about improving web performance, enhancing user experience, and delivering high-quality projects within deadlines.

### Key Achievements:

- Successfully developed and deployed **4+ major front-end projects**, including **Gym Gears**, **Saabzi.com**, and **Auto Show**, showcasing custom CSS and React integration.
- Contributed to increasing website engagement by implementing responsive layouts and modern UI/UX designs.
- Completed a **3-month internship** at Ezzline Software House, mastering foundational front-end technologies.
- Achieved a **100% success rate** on Upwork with consistent 5-star client feedback during a **6-month freelance tenure**.
- Continuously enhancing skills by learning modern frameworks like **React** and **Bootstrap 5** to stay updated with industry trends.

## EXPERIENCE
